Dear valued customer,

The brand is in high demand, people in different age groups are wearing their beloved Carhartt on and off the job, 24/7.

We are proud our brand is reaching more and more people across the globe.

Now, more than ever, we need to educate our consumers about our DNA, our workwear roots and rich heritage. There's no better way to do this than celebrating this in the upcoming year, when the brand turns 135 years. 135 years of making, doing, building, and creating with your hands, that's worth a celebration.

In front of you is a brand new workbook with another exciting Carhartt collection, available in Fall 24. A "head to toe" offer with a rich colour pallet that merchandises nicely in in-store. To celebrate our birthyear, there will be a collection of reengineered Icons, timeless items with today's updates.

We're making it happen since 1889, thank you for being part of that journey.

Stay well, keep busy,

Albert Foppen

Vice President EMEA/PAC

TECHNOLOGY REFERENCE

ICON		MARKETING DESCRIPTION	FABRIC DESCRIPTION
	Rain Defender™ Durable Water Repellent (DWR)	Amazingly durable and dependably water repellent, moisture beads up and rolls off. Rain Defender™ Durable Water Repellent.	Water Repellent finish that provides protection in light rain.
	Quick Duck™	Carhartt Quick Duck™ outerwear: repels the rain, resists the wind. Anything else up your sleeve, Mother Nature?	30% lighter blended cotton, water repellent, and ounce-for-ounce as tough as our legendary sandstone duck.
	Storm Defender™	Waterproof, breathable technology stops water from getting in but lets sweat out.	Membrane/laminate applied to the fabric to keep water from reaching the inside of the garment, but also allows sweat/heat to escape.
	Rugged Flex™	Gear made to move in, so whatever you're doing, it's easier to do. Rugged Flex™ stretch technology for ease of movement.	Carhartt's rugged stretch designation given to materials that will meet the defined standards for stretch and recovery.
	Wind Fighter™	The wind can whistle, you won't care. You're better protected than a franchise quarterback in a pre-season game. Wind Fighter™ technology tames the wind.	Finish or added membrane that keeps wind from going through the fabric and reaching your skin.
	Carhartt Force™	Wicks sweat and dries fast. Force technology staves down heat and keeps you cool.	Fabric must have Fast Dry™ wicking technology and may be combined with the following properties: - Fights odors - Rugged Flex™ stretch
	RIPSTOP®	Carhartt's Cotton Ripstop® is built to stand up to tough days. The Ripstop® fabric is specially designed to resist rips and tears so it doesn't wear down quickly due to its better weave.	Carhartt Ripstop® fabrics are woven fabrics, using a reinforcing technique that makes them more resistant to tearing and ripping.

ALL OUR DUCKS, IN A ROW

Brown duck was the genius creation of Hamilton Carhartt. His brown duck bib overalls for railroad workers revolutionized clothing for the working class. These overalls were first recorded in a 1915 newspaper article that described the new “wonderful brown Carhartt’s.” This brown duck bib is still in the Carhartt stable and remains as popular as it was when originally introduced. Hamilton Carhartt’s brown duck serves as a reminder that great quality never goes out of fashion. Today, we’ve increased our duck line across the board for men’s, women’s and accessories and color, to the advanced technologies and finishes used to fortify the garment, there’s a hardworking duck fabric for every task.

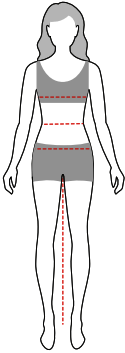

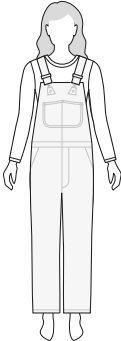

WHAT IS DUCK FABRIC?

Since the introduction of our original brown duck in 1915, Carhartt has developed 8 different variations of our famously durable workwear fabric — currently in use in over 200 rugged Carhartt products. With distinctive properties ranging from fabric strength, weight, rigidity, and color, to the advanced technologies and finishes used to fortify the garment, there’s a hardworking duck fabric for every task. Learn more about our different duck types below.

LEARN MORE ABOUT OUR DIFFERENT DUCK TYPES BELOW.

FIRM DUCK Our strongest cotton duck is the most durable canvas out there. Built with added toughness, firm duck is water-repellent, wind resistant, and rugged. If you like to break in your jackets and pants, firm duck is for you.	
DUCK Good ‘ol duck is stiff, ring-spun cotton. If you like your Carhartt solid, classic and durable as the day is long, this is the duck for you.	
WASHED DUCK If you like sandstone duck, you’ll like our washed duck. This fabric feels exactly like it sounds — we took our durable, classic duck, and washed it for a broken-in look and feel. It breaks in faster than duck, and looks newer, longer. Find it in gear like our Full Swing®	
SANDSTONE DUCK Sandstone duck is sanded and brushed for softness and comfort. The more you wear it, the more it breaks in—it’s comfortable the first day you put it on and more comfortable and worn-in on the 50th.	
QUICK DUCK™ Quick Duck™ is a 9oz and polyester/cotton blend, therefore lighter than traditional sandstone duck but still durable. It’s built with a durable water repellent finish, so water repellent, so water beads up and rolls off, and it doesn’t require breaking in like sandstone—so your gear will always look fresh.	
RUGGED FLEX™ DUCK Rugged Flex™ Duck gives you the classic Carhartt look, with just the perfect amount of stretch. Made by combining our famous cotton Duck with Rugged Flex™ durable stretch technology, the result is increased ease of movement everywhere it’s needed, and our most comfortable heavyweight gear yet.
