REACH Regulation 2026 – Regulation (EC) No 1907/2006

➤ Declaration of Conformity for AMANN Sewing & Embroidery Threads

Dear Sir Šmotek,

Thank you for your enquiry regarding the environmental compatibility of our products. In compliance with our information duty to REACH according to Article 33 "Duty to communicate information on substances in articles", we hereby gladly confirm, that none of our delivered articles do not knowingly contain substances that are subject to reporting pursuant to Article 57 of the REACH regulation.

All substances used in our production listed internally and their hazard potential is assessed, for reasons of operational safety and environmental protection. AMANN sewing & embroidery threads conform to the requirements of REACH regarding SVHC (Substance of Very High Concern), as listed in the candidate list of the EU Chemicals Agency (ECHA) and do not contain SVHCs in a concentration above 0.1% w/w. You can find the currently valid list of the **253 SVHC** issued dated 4th of February 2026 in the link as below:

<https://echa.europa.eu/candidate-list-table>

AMANN Sewing & Embroidery Threads are composed of non-hazardous substances, which do not present any risks to human health or the environment with proper use and therefore not subject to special risk management measures.

All of our lubricants classified as "non-hazardous" and therefore no special risk management measures (as required by REACH) are necessary. They are not subject to the regulations of the REACH ordinance.

Additionally, our products fulfil the requirement according to Annex XVII to REACH as far as applicable on sewing threads. The valid list dated 10th of December 2025 can find as below:

<https://echa.europa.eu/substances-restricted-under-reach>

For further questions concerning the environmental compatibility of our products, please do not hesitate to contact us.

Kind regards

Amann & Söhne GmbH & Co. KG (AMANN Group)

On behalf of AMANN
Ingo Erkelenz
Global R&D Project Manager ECO
