4L

4L Capacity

Easily removable grain barrel with 4-liter capacity is big enough to last for days. The barrel could be used with any type of dry grain with a diameter between 2 and 10mm. It's partially see-through design makes it easy to check the amount of remaining food.

10g

Scheduled Feeding

With Tesla Smart App for iOS and Android devices, scheduling is as simple as it could be. You can set up multiple feeding times with portions as small as 10 grams. You can also press the Feed button on the device or mobile app to issue a single portion manually.

Tesla Smart for Android a iOS

Backup Battery

With a backup battery system built into the base of the feeder, you don't have to worry during power outages. As long as there is enough food in 4L barrel, your little friends won't be hungry.

Two-Way audio

Thanks to the speaker and microphone, you can always hear, what is happening at your home.
