App:	TESLA Smart app for Android and iOS
App Language:	EN, DE, CZ, SK, PL, HU, SL, HR
Product ID:	TSL-PC-110015

Multi-angle and multi-track

Three different trajectories and three modes are made at three different angles. Happiness always outlasts boredom with kitty high with the red beam. Joy is in every moment!

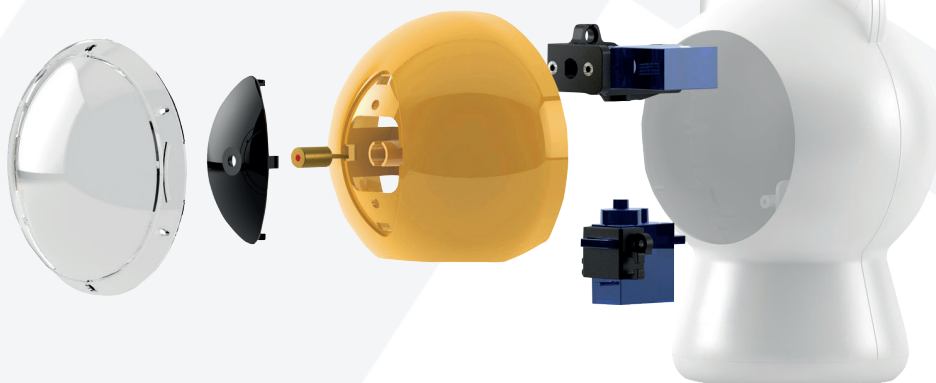

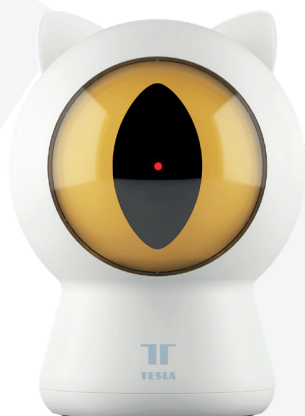

For bored hunters

Tesla Smart Laser Dot is designed to stimulate cats' chasing and hunting instincts bringing out the hunter in your kitty. Our furry ones can now play on their own when staying alone at home.

Seamless acceleration

Seamless acceleration without interruption by gear shifts is delivered by Continuously Variable Transmission, also known as stepless transmission. Your loved kitty chases and hits wildly at the tiny red dot on the wall, purring, meowing, and batting at the beam of light. Excitement fills every pore, pleasure streaks across the body. Walls and floors turn into fun playgrounds.

Tesla Smart for Android a iOS
