You won't hear any noise from the pump

Specification:

Food capacity:	2,5 L
Filter type:	Organic cotton filter
Purification material:	Active carbon and resin particles
Connection:	Wi-Fi
Power supply:	DC 5V, 1A
Working temperature:	0 °C - 50 °C
Dimensions:	230 x 175 x 160 mm
App:	Tesla Smart app for Android a iOS
App language:	EN, CZ, SK, PL, HU, SL, HR, DE
Product ID:	TSL-PC-WFUV

2,5L

2,5L Capacity

Detachable design makes cleaning fast and easy. 2,5L capacity is enough to keep your pets hydrated for days..

UV sterilization

The water is still free of harmful bacteria due to UV sterilization. This ensures that the water is safe even for a long time before you change the water in the tank.

Purification system

Thanks to the ion exchange resin, activated carbon, and cotton filter, the water stays always fresh and clear. This filtration system makes the water softer, free of residual chlorine, and heavy metal ions.

Tesla Smart for Android a iOS
