

Quick Start

Model: U01

Please read the user manual before beginning.

0.3.0.02.U01000-10-00

Thank you for choosing the PATPET U01 device.

The U01 is designed to let dogs live safely, happily and get along with people more harmoniously.

⚠ WARNING Do not use with aggressive dogs.

Aggressive dog's can cause severe injury and even death to their owner and others. If you are unsure whether this product is appropriate for your dog, please consult your veterinarian or certified trainer.

⚠ CAUTION Safety on-leash training.

It is vitally important that you and your dog remain safe while learning on-U01 training. Your dog should be on a strong leash, long enough for him to attempt to chase an object, but short enough for him not to reach a road or other unsafe area. You must also be physically strong enough to restrain your dog when he tries to chase.

WORK PRINCIPLES

This handheld ultrasonic bark control (device) is made with ultrasonic technology. When the dog barks, press the Ultrasonic emission button and the speaker will release ultrasonic sound to stimulate the dog and make him feel uncomfortable. After this is repeated for a few times, dog will learn that his barking will bring uncomfortable feeling to himself. By so, he will always think of this when he want to bark. This is a safe and effective way to stop barking.

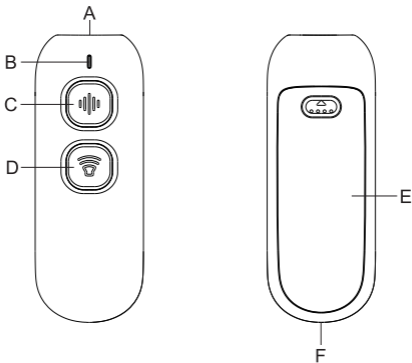

HINTS AND TIPS

1. Different dog breeds may react to the ultrasonic sound differently. For optimal results ,please use the product as a training aid, along other tools/commands.Be patient on this training process.
2. Average human hearing frequency range is between 20Hz~20KHz,and dog can hear a wider range from 15Hz~120KHz. The product emits ultrasonic sound at 23KHz~27KHz. So the sound cannot be hear by human but can be hear by dogs.
3. Do not use the device against your ear for testing.
4. This device can be used for bark deterrent training for dogs. Maximum operating range is 30 Ft.
5. This device is not intended to provide protection against aggressive dogs.
6. This device is not a toy, keep out of reach of children.
7. Do not submerge the unit in water or any other liquid.
8. If press and hold the button for 10 sec, the device will shut off.
9. If red light flashes, the device is low battery.

SCENARIOS

1. This device can be used in both indoor and outdoor settings.
 2. This device can be used as a training aid.

Warranty and repair information

1-Year Limited Lifetime Warranty

The original purchaser for this unit is provided with 1-YEAR WARRANTY. The warranty begins from the date of purchase. For the first year, coverage is for both Parts and Labor on warranty repair services.

Accessories such as straps and batteries are covered for the first year only. After the first year, the Limited Lifetime Warranty covers Parts only and does not cover Labor Fees and Accessories. All shipping fees incurred, the cost of Accessories after the first year, and labor cost related to the repair work out of warranty, are the customer's responsibility. Labor cost will be variable depending on the work load. The limited lifetime warranty expires 5 years after a model ceased production.

To Qualify for the Warranty

A proof of purchase is required to initiate repair work for any models within warranty time. We strongly recommend customers to keep the original receipt. If the original receipt is not available, the production date of the unit will be judged by the S/N (serial number) . S/N may differ from the actual purchasing date, is the only method of judging the approximate purchasing date with the purchase proof absent.

Not - Warranty Range

We DO NOT offer warranty for products that have been bought secondhand or as a resold product. We DO NOT replace defective units or provide refunds for products purchased from us after 30 days from the date of purchase. Issues of replacement and refunds on units purchased less than 30 days from an authorized dealer must be addressed to the dealer directly. If the products purchased from an authorized dealer are after 30 days from the date of purchase, please send the units to us for service and repair. We DO NOT cover the cost of repairs and replacements due to misuse by the owner or dog, improper maintenance, or unit loss. Any water damage on the water proof remote control or collar will not be covered by us, all the relating cost will be burdened by the customer. The warranty is invalid if the unit has been altered or an unauthorized person has damaged the unit while attempting repair work. We reserve the right to retain and discard any parts or accessories that have been found damaged upon replacement and repair.

Procedure for Repair Work

If the unit is defective, please refer to the above " Troubleshooting Guide " before deliver it back to for service support. The shipping cost will be burdened by customer. We will not responsible for any unit damage or loss during delivery, also the training time loss or inconvenience while the unit is under repairing. We do not provide loaner units or any form of compensation during the repair period. A copy of the sales receipt showing the purchase date may be required before warranty work is initiated. Please offer a brief description of the defective issues and leave us your name, address, phone number and email address.

Compliance

FCC - USA

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received, including interference that may cause undesired operation.

CAUTION: Modification or dismantling to this equipment not expressly approved by Manufacture may void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CAUTION Disclaimer.

We have the right to modify any information any time contained in this manual Without prior notice and without any liability. We shall not be liable for any consequences caused due to failure to follow the relevant instructions on this manual. We reserve the right for the final interpretation on this manual.
