Foam Sticker

User Manual
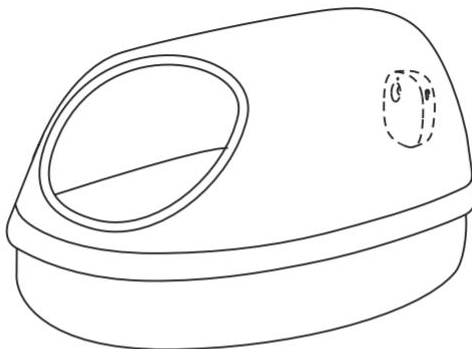

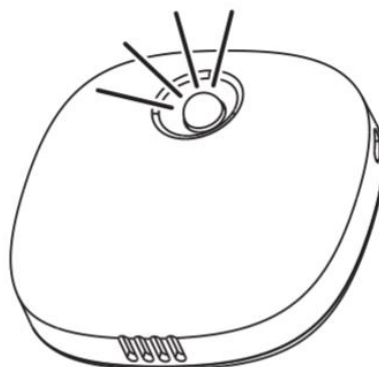

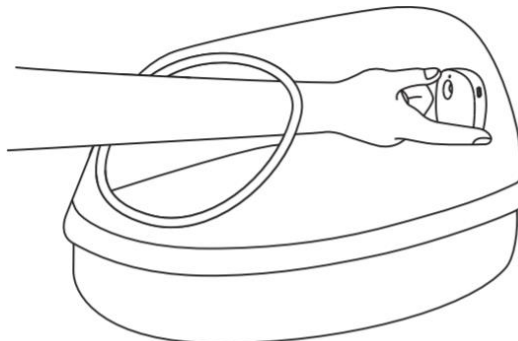

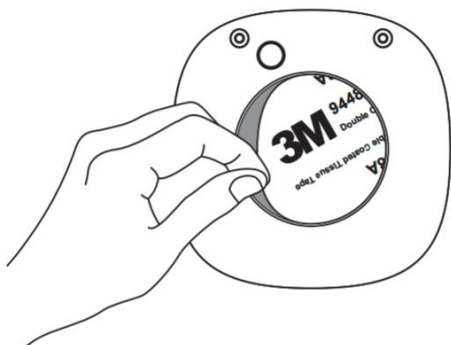

Operations

1. Wipe and clean a spot above the toilet (20-40 cm away from the litter box is ideal) or the inside of the litter with a dry cloth. (DO NOT use detergent to avoid affecting the stickiness).

2. Short press to turn on the eliminator: the LED indicator flashes three times.

3. Peel off the 3M sticker on the back, place the air outlet downward, stick it to place where you expect and press it evenly for 10 seconds to get it secured.

Charging

Rotate 90˚ counterclockwise to remove the eliminator or directly connect to the power supply for charging. It will be fully charged in 3.5 hours.
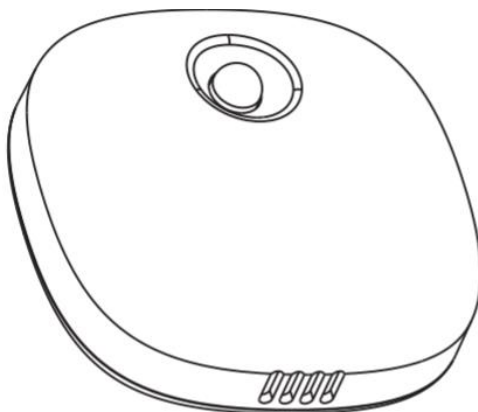

* The power supply needs to be purchased separately!

Working

Working: Emit once every interval of time, working in cycles.

After motion detected: The device will stop working after its sensor is triggered and emit immediately after the pet leave for 1 minute.

Quick setup

1. Scan the QR code on the right or download the Petoneer App from App Store and Google Play. Sign up and sign into the app.

2. Click the '+' button and get walked through the SET-UP steps.

    Notice: Due to the upgrade and update of the Petoneer app, the actual operation may be slightly different from the above description. Please follow the instructions in the current Petoneer app!
