(1.2 M) x 1

Manual x 1

Foam Sticker x 2

Meet your Petoneer Smart Pet Cam

Operations

1. **The pet cam** can be placed on a flat surface like a desktop, dining table, etc., or mounted on the wall. Press of the 3M sticker on the back of the product, stick it to the expected location and press it evenly for 10 seconds.

*The wall needs to be able to withstand at least 3 times the total weight of the camera.

2. Power up

Plug the power cord into the camera's Type-C power input at the back to turn on.

*This power adapter (USB 5 V 1 A) is not included, please find a spare one yourself.

3. After power-on, you will hear a prompt tone, and the Wi-Fi LED flashes slowly in blue at the same time, and you are ready to set up!

Download the Petoneer app and set up the camera.

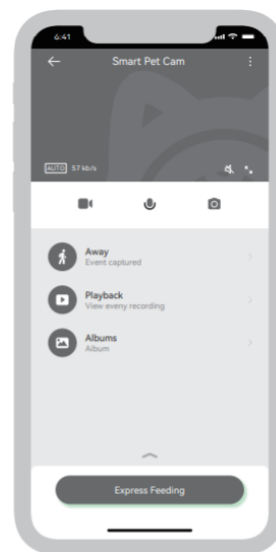

Quick setup

1. Scan the QR code on the right and download the Petoneer App, which is available on App Store and Google Play. Click Sign up to get walked through to create your Petoneer account.

2. Power on and ensure the Wi-Fi Indicator LED is flashing slowly, reflecting the device is ready for joining the Wi-Fi. Open the Petoneer App and click the '+' button and get walked through the SET-UP steps.

Interconnection is now available for Nutri Smart Pet Feeder and Nutri Mini Feeder. The feature will come to more devices gradually without any written notice.

Notice:

1. The pet cam doesn't support the 5 GHz Wi-Fi, please make sure your Wi-Fi is 2.4 G.
2. If the Wi-Fi indicator is not blinking slowly after power-on, please long press and hold the button until the indicator blinks slowly.

Wi-Fi LED explained

LED	Status
Blinking slowly in blue	Ready to set up
Blue steady on	Connected

Tech specs

Name:	Petoneer Smart Pet Cam	Communication:	Wi-Fi (2.4 GHz)
Model:	PC001	Range:	30M (98 Ft)
Power:	DC 5 V 1 A	Net weight:	About 78 g
Resolution:	1080 P		
Dimensions:	3.04 x 2.18 x 1.97in (77.29 x 55.4 x 49.93 mm)		

Precautions

1. **This product** is for indoor use only; please do not use it in a humid environment or outdoors.
2. **Make sure** that there are no obstructions around the device.
3. **The camera** should be placed within the coverage area of the Wi-Fi signal.
4. **Do not** place near the source of strong electromagnetic interference.
5. **Night vision camera flickering**
Since night-time cameras use infrared technology to produce high-resolution images in low light conditions, the interruption of headlights can sometimes cause flickering as the camera automatically adjusts from infrared to normal light to produce the image.
6. **Children** can only use under the guidance of adults.

WEEE

This product must not be disposed of as normal household waste in accordance with the EU Directive on Waste Electrical and Electronic Equipment (WEEE - 2012/19 / EU). Instead, it shall be returned to the place of purchase or handed over to a public collection point for the recyclable waste. By ensuring this product is disposed of correctly, you will help prevent potential negative consequences for the environment and human health, which could otherwise be caused by inappropriate waste handling of this product. Contact your local authority or the nearest collection point for further details. Improper disposal of this type of waste may result in fines in accordance with national regulations.

The device has been approved for use in EU countries and is therefore provided with the **CE mark**. All necessary documentation is available on the website: www.electric-collars.com
Changes to technical parameters, properties and printing errors reserved.
