INPUT:5V

① Test The Bark Collar

1. Charge the Bark Control Collar before use

The Bark Collar can be charged via PC, Power Bank or Charger with an output voltage of 5V for 2-3 hours.

Description of Charging

BATTERY ▪ ▪ ▪   When the Bark Collar is on charge, the Battery Bar blinks from left to right and the Indicator blinks fast.

BATTERY ▪ ▪ ▪ ▪   When the Bark Collar is fully charged, Battery Bar stop blinking and the Indicator becomes solid.

🚨 A warning tone will be delivered if the Bark Collar is not on charge with a 5V-rated charger.

Note:

1. Make sure to use a 5V-rated charger to charge the Bark Collar.

2. Use the Micro-USB charging cable in the package when charging. Other charging cables may not be suitable for this Bark Collar and may cause electric damage.

3. The charger, power bank and other charging devices shown in the above picture are not included in the box.
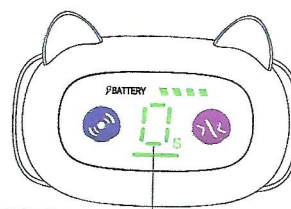

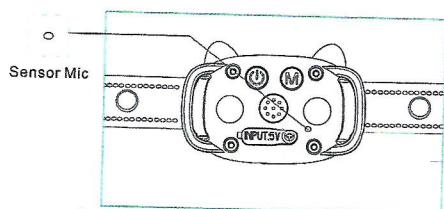

2.Power on the Bark Collar
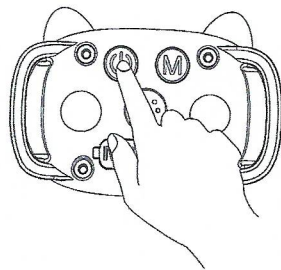

Press and hold the Power Button for 3 seconds to power it on.
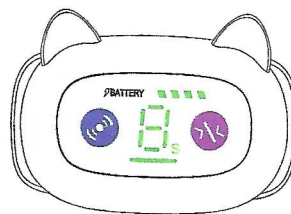

The display will turn on with a vibration.

3.Set the Bark Collar to Test Mode

Set the Bark Collar to Test Mode by pressing the Power On/Off Button until the display shows 0. After that, imitate a dog bark towards the Sensor Mic located at the back of the Bark Collar.

Sensor Mic

Woof
Woof
Woof

Press the Power On/Off Button to get to the Test Mode, and make sure the digit shows 0 before the test.

## 4.The Response of the Bark Collar in the Test Mode
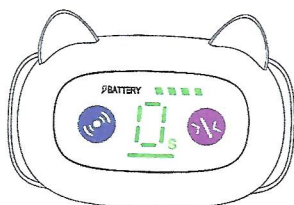

When the Bark Collar is set to the Test Mode, no matter what mode it is in, it will deliver a Warning Tone and a Vibration after you imitate a dog bark towards the Sensor Mic.
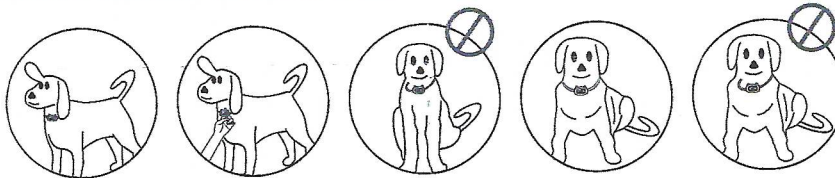

If the Bark Collar responds as described above, you've succeeded in setting up the Bark Collar properly.

3

② Put the Bark Collar on Your Dog

Note: have a look if you have a small dog!
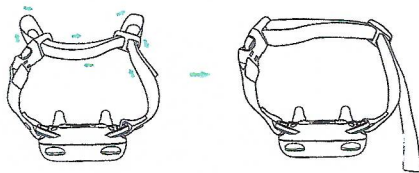

Please ensure to fit the Bark Collar snugly. yet loose enough to allow one finger to fit between the strap and your dog's neck.

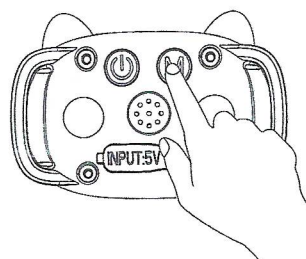

Great! Now you have successfully put the Bark Collar on your dog and it is ready for training!

(1)The Bark Collar will go to the next step if your dog keeps barking within 1 minute.
(2)The Bark Collar will automatically go back to Step 1 if it is not activated within 1minute.

⑥ Frequently Asked Questions Answers

Q: Why doesn't the Bark Collar work when the dog barks?

A: Please first ensure to fit the Bark Collar snugly, yet loose enough to allow one finger to fit between the strap and your dog's neck. Some dogs have weak barking, and in this case, you will need to level up the sensitivity level. A thick coat on the neck area may also have a small chance to decrease the sensing from the barking. Please trim the coat near the area where you place the Bark Collar.

Q: Why is the Bark Collar triggered sometimes in a noisy environment though the dog isn't barking?

A: Though we have optimized the barking detection to the best, some environment noises may have a similar frequency to barking, which may have a small chance to activate the Bark Collar. Please lower the sensitivity level.

Q: Can I use the Bark Collar when other dogs are playing around?

A: Dogs will bark when playing and get excited. For the comfort and safety of your dog, we don't suggest using this Bark Collar in such an environment.

Q: How do I know if I can use this Bark Collar for my dog?

A: The Bark Collar is designed for healthy dogs over 6 months old. Most importantly, this Bark Collar cannot be used on unhealthy or aggressive dogs, and if you are unsure whether this Bark Collar is appropriate for your dog, please consult your veterinarian or a certified trainer.

Q: Can this Bark Collar stop my dog's howl?

A: No, this Bark Collar is designed to detect the barking only. It cannot detect or stop the howling.

Q: Can I charge this Bark Collar with any type of charger?

A: No, you are suggested to charge this Bark Collar with a 5V-rated charger, because other chargers with an output voltage over 5V may cause damage to the Bark Collar. The Bark Collar will stop charging automatically if the input voltage becomes too high and deliver a warning tone.

Q: Will my dog stop barking completely?

A:The Bark Collar effectively and humanely stops all barking when it is worn. It should only be worn during periods of unwanted barking.

Q: Is the Bark Collar safe and humane?

A: Yes. The Bark Collar is designed to get your dog's attention, not to punish him. However, the initial correction may startle your dog.
