Product Installation

Check if the accessories are complete against the packing list.

Product installation steps

**STEP 1** ❯❯ **Determine the device installation location.**

Measure the height of the installation location to determine the optimal position for the device.
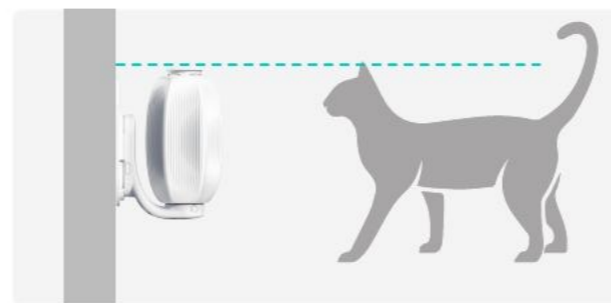

*The top edge of the device should be parallel to the tips of the cat's ears when it stands normally.

STEP 2 ❯❯ **Install the hanging rack.**
Attach/nail/tie the hanging rack to the determined location.

a — Surface
b — Wall
c — Table leg
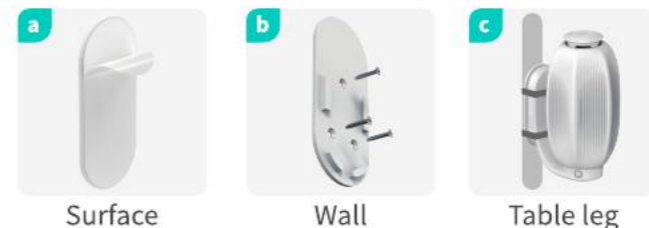

a. For mounting the hanging rack on glass, please clean the glass surface first to ensure that it is clean and flat. Tear off the double-sided tape on the back of the hanging rack and stick it to the determined location. Use it after leaving it for 24 hours.

*Do not use it immediately to avoid poor adhesion.

b. For mounting the hanging rack on the wall, use the screw accessory to drive the screw into the wall, and fix the hanging rack in the determined location.

c. For installation on other places such as table corners, use the tie accessory to tie the two tie straps through the two fixing grooves on the support column and the fixed position.

*For flat materials, you can use the double-sided tape on the back of the hanging rack to make the installation more secure.

STEP 4 ❯❯ **Install the main device.**
Insert the main device into the hanging rack, turn on the power switch, and the installation is complete.
