PETKIT

Petkit Cat Litter Pad for Pura Max 2 and Purobot Max Pro

Step 1: Hold

Step 2: Insert

Step 3: Release

LEFT   RIGHT

1. Before replacing the pad, empty the remaining cat litter inside.

2. Remove the filter strainer.

3. Remove the pad from the bottom buckles in numerical order.

4. Insert the washed or new pad into the cylinder, align the positions of the tabs clip the bottom edge into the corresponding snaps and fasten the edge firmly.
5. After installation, make sure all snaps are secure and in place.

Note: The improved elastic edge can bend and automatically snaps back, making installation easier.
