

Cutter Cleaning

Use brush to clean the cutter.

Disassemble the blade and use brush to clean.

Note

1. Never willfully disassemble the product.
2. Water must not be used to wash the clipper, keep away from the dampness while operating.

3. Only use a little wet cloth or neutral liquid soap to clean the product.
4. Never charge the product above 40°C heat source or below 0°C environment.

- *Slight heating during the operating or charging is normal case
- *After the battery life expires, take off and throw the battery in safe manner into the designated recycling site. Never dump it randomly.

DANGER

To reduce the risk of injury or death by electric shock:

1. Do not reach for an appliance that has fallen into water. Unplug immediately from the outlet.
2. Do not use while bathing or in a shower.
3. Do not place or store appliance where it can fall or be pulled into a tub or sink. Do not place in or drop into water or other liquid.
4. Except when charging, always unplug this appliance from the electrical outlet immediately after using.

CHARGING THE BATTERY

Before the equipment is used for the first time, it should be charged 3-5 hours. Plug power cord directly into unit. Be sure clipper is switched OFF when charging. During charging, the charge indicator is illuminated.

LITHIUM-ION BATTERY DISPOSAL AND RECYCLING:

Do not attempt to remove the battery. Lithium-ion batteries can explode, catch fire, and/or cause burns if disassembled, damaged, or exposed to water or high temperatures.
