How to Protect The Skin of Neck About "Collar Sores"

The milliamps generated from the receiver of training collars simply cannot generate enough heat necessary to do tissue damage. The real problem comes from inappropriate wear of the collar receiver to skin.

Pressure necrosis, or what many in the industry call "collar sores", can happen if the receiver is not being worn properly. They also occur if the collar is kept on the dog for too long of a period of time.

There are two reasons:

1. Improper fit
 2. Improper wear time
- Please pay attention to your dog's neck when you begin using a training collar. A few times throughout the day take a peek and see how the skin looks. Make sure the fit is correct and notice if there is the beginning signs of redness. If so, move the receiver to the opposite side of the neck or take the collar off for a bit to increase airflow and circulation to the skin.

FAQ

- Q:** Is the bark control collar safe and humane?
A: All training methods will not cause any direct harm to the pet's body, but make them feel extremely uncomfortable. But even so, do not overuse this product on pets. Please refer to all **WARNING** and **CAUTION** contents in the manual.
- Q:** Why does the collar not work when the dog barks?
A: There may be three reasons for this problem. The first is that the trigger sensitivity is not high enough, so try to increase the trigger sensitivity. Second, the probe does not touch the skin, so try to adjust the belt tightness to ensure good skin contact. Third, use the test board to test the E-Shock function again.
- Q:** Other dog barking sounds or other ambient noise can trigger the collar.
A: It is possible, but the probability is lower. We optimized the dog barking waveform recognition technology to enhance the ability to resist false triggers. If a false trigger occurs, please adjust the sensitivity setting appropriately.

Troubleshooting

If the product is abnormal during use, you can do the following:

- Check Collar Wearing** Make sure the collar is tight enough and the device is in the correct position.
- Increase Sensitivity** Adjust the sensitivity setting to suit the usage scenario.

www.electric-collars.com / www.reedog.eu

- Test Product** Check if the product is working properly and do the necessary tests.
- Contact Dealer** For more questions, please contact your local or online dealer.

Terms of Use & Limitation of Liability

1. Terms of Use
Your use of this product means that you accept all terms, conditions and statements in this manual.
2. Correct Use
This product is designed for pets that need training. Proper use includes reviewing the entire User Manual included with the product and any specific "Caution" statements.
3. Prohibition of illegal or Prohibited Use
This product is only suitable for pets. This training device is not intended to harm or provoke pets. Using this product not in accordance with the instruction manual may violate local laws.
4. Scope of Responsibility
The manufacturer is not responsible for any related damages, direct, indirect, punitive, non-major, and other indirect losses caused by incorrect use or abuse of this product. The buyer bears all risks and responsibilities of using this product.
5. Modification of Terms and Conditions
The manufacturer reserves the right to change the terms, conditions and notices related to this product.

Certification Statements

FC
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

- However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.

CE

The company declares under its own responsibility that this product complies with the basic requirements of CE (2014/30/EU) and RoHS (2011/65/EU). Without the approval of our company or the distributor, unauthorized changes or modifications to the equipment may violate the CE regulations, may cause the user to lose the right to operate the equipment, and invalidate the warranty.

Recycling Information&Battery Disposal
Please observe the regulations for electronic and electrical devices to be disposed of in the respective country. In some countries or regions this device must be recycled. If this device is no longer required, it must not be disposed of with normal municipal waste. Separate collection of spent batteries is required in many regions; check the regulations in your area before discarding spent batteries. For more recycling information, please refer to local regulations.

Specifications

Product name :	Smart Bark Training Collar
Product model :	TC-006
Operating voltage :	3.7V
Battery capacity :	300mAh
Rated input :	DC 5V / 1A
Waterproof rating :	IP67
Operating temperature :	-10°C ~ +50°C
Storage temperature :	-20°C ~ +60°C
Device volume :	71mm*39mm*40mm
Product Net weight :	98g
Designed and Manufactured in China	Version:1.2
