

Framing instructions

After all the effort that's gone into getting an order safely to you, it's important to open the package carefully!

Here's our best advice for a drama-free experience:

- 1 Gently slide the print out of the plastic cover.
- 2 Uncurl poster and place heavy objects on each corner. Leave to flatten overnight.
- 3 For better results you can mount the poster on a thick board. We recommend letting your local framing shop do that.
- 4 Choose a suitable frame 50 x 70cm. Whether that's from a high-street retailer, or a framing specialist.
- 5 Frame it - Hang it - **Love it**
- 6 Share it with us **#iamautomobilist**
