## Download the ANTHBOT App

ANTHBOT App can be downloaded from Apple APP Store or Google Play, or scan the QR code to download and install ANTHBOT App. After downloading, please register an account, log in and follow the APP prompts to add the device to start using.

### Step 1 Find location

#### 1 Find an unobstructed area

**Warning:** Ensure the installation location has WiFi signal coverage.

#### 2 Place charging station

### Step 2 Installation

#### Installation and power supply

\*It is recommended to secure the power cable of the RTK base station to the RTK pole using cable ties.

\*Please place the adapter in a dry location where it will not be submerged in water.

**Warning:** The indicator light cannot stay green all the time. Please try again after changing the installation location.

#### 5 Secure the charging station

### Step 3 Operation

#### App operation

**Warning:**

1. Please create a map before starting the task.
2. Before operation, please ensure that the RTK base station indicator is solid green and that the GPS signal indicator on the machine is solid.
3. Make sure to start from the charging station before creating a map.
4. If the RTK base station is tilted or moved after the map is created, you need to recreate the map.
5. Please create the No-go Zone in the application to prevent the device from entering the dangerous area.

#### Mower operation

**Unlock the mower**

Ensure the safety key is installed on the device. The machine cannot start without the safety key.

Please refer to the user manual for more details
